

FIELD SCIENCE INTERNSHIP

**PRINEVILLE
SUMMER 2022**

WHO?

Three 16-18 year olds in Prineville who are interested in natural resources, science, and being outdoors.

WHAT?

100+ hours of paid job training in natural resources in a positive and supportive team setting. Interns will:

- Learn about fisheries, hydrology, grazing management, forest management, and watershed restoration
- Participate in real-world data collection
- Experience “a walk in the woods” with natural resource specialists from Ochoco National Forest and Deschutes Land Trust
- Complete a team project related to community outreach
- Have access to coaching and additional training opportunities that support your goals and development

WHEN?

Orientation: June 23 and 24

Fridays from July 1-August 19 (6 hour days)

Plus 40 hours of service from August 22-September 2

**Schedule allows interns to participate in YCC

WHY?

- Earn competitive wages
- Gain skills that look great on your resume
- Network with potential future employers
- Explore and give back to public lands
- Make a positive impact in your community

\$15.50/hour
(Up to \$1,550 over the summer)

APPLY BY MAY 16
